# NSC SAFETY COMMITTEE...NEWSLETTER MESSAGE...OCTOBER 2014

# NSC SAFETY ZONE

by Chris Gosselin, Safety Committee Chairman

Here are a few tips that can help make your next trip to the range safer and more enjoyable for all of us.

- Please read, understand, and **follow** all posted range safety rules before shooting.
- **Never** handle any firearm during a cease fire!
- Always **remove** your magazine and **lock** your action to the rear, leaving the ejection port up and visible before going downrange.
- Visually **check** each firearm on the line to be sure it is safe before going downrange.

The safety committee is looking for additional members to help support our club and make it as safe as possible at all times. We meet the first and third Tuesday of each month at 6:30 p.m. in the Lounge—please email me if you're interested at [gosselinm@gmail.com](mailto:gosselinm@gmail.com).
